How to use this workbook

家长使用说明

This workbook follows Book 10 of the series. It only uses the words your child has already met in the reading book — nothing new is introduced here.

One page a day is enough. Ten minutes, not more.

① **Tracing** — the first character is solid, the rest are faint. Trace over them.
② **Matching** — draw a line from the picture to the word.
③ **Circling** — circle every character your child has learned.
④ **Writing** — look at the picture, say the sentence, then write it.

Do not correct tones at this stage. Recognition first, writing second.

Answers are on the last two pages.
